

千葉大学 代数セミナー

数学・情報数理学科

講演者：Yifan Yang (National Taiwan University)

講演題目：Class number relations arising from intersections of Shimura curves and Humbert surfaces

概要：

In an earlier work, we obtain class number relations by considering intersections of Shimura curves and Humbert surfaces. In this talk, we will present a proof of these relations using modular forms.

日時：2023年8月2日（水）16:00～17:00

場所：理学部2号館105号室

世話人：大坪紀之・津嶋貴弘・松田茂樹
